

CONTRACTOR SWEEPSTAKES WINNER

The winner of the \$11,000 Contractor Sweepstakes presented by *Modern Contractor Solutions* in conjunction with Tattletale, Lincoln Electric, Muck-Truck, Leica Geosystems, Husqvarna, and Bass Pro Shops is Brandon Dully of Seattle, Washington. Dully works for Guy F. Atkinson Construction, LLC, based in Renton, Washington. Congratulations Brandon!

GRIFFIN INTRODUCES THE WELLPOINT PIPE PULLER

The Wellpoint Pipe Puller is a “safety breakthrough” as well as an ideal time saving part in the dewatering set up over the conventional methods. The Wellpoint Pipe Puller grabs the inside of the pipe wall below the threaded section of pipe or the joint of PVC pipe, making the removal of the installed wellpoint a quick, simple, and safe job. For more information, call 866.770.8100 or visit www.griffinpump.com.

BLUEBEAM® PDF REVU® 9 STREAMLINES PDF-BASED DIGITAL WORKFLOWS

Bluebeam PDF Revu 9 is Bluebeam Software’s fully-loaded PDF platform solution that enables contractors to redline PDF drawings and documents to achieve paperless construction

projects that save time and money. The latest version adds 3D PDF viewing capability for navigating complex models to gain a dynamic view. Search for specific visual elements across one or multiple 2D PDFs—and even apply markups and hyperlinks to those found—with the exclusive new VisualSearch™ feature. A new area cutouts function makes it easy to account for room obstructions in area takeoffs to create more accurate estimates. Other new features include scripting capabilities for batch processing, PDF to MS Office document conversion and markup translation. For more information, please contact Bluebeam at sales@bluebeam.com.

ALFA TOOLS ANNOUNCES NEW HOLE CUTTERS

Alfa Tools introduces a complete line of tungsten carbide hole cutters for cutting precise, burr-free holes in sheet metal, steel plate, iron, aluminum, copper, cast iron, stainless steel, fiberglass, and plastics. These hole cutters are suitable for precision hole fabrication in junction/switch boxes, metal studs, auto body and frame repair, metal pipe, and other sheet metal and metal plate applications.

The high-performance tools feature extra hard tungsten carbide teeth, three flatted shanks for secure chucking, a safety collar to prevent over penetration and a spring loaded pilot drill system to automatic plug ejection. These cutters are available

in $3/16$ " and 1" depths of cut in cutting diameters from $9/16$ " to 3". All cutters are packaged in sturdy, plastic storage tubes with bright graphics for showroom display. For more information, visit www.alfatools.com.

TOWMASTER GIVES AWAY TRAILER

Towmaster, Inc., manufacturer of equipment trailers and truck bodies and long-time member of the American Rental Association,

gave away a model TE-12D 12,000 lb. drop-deck trailer in a promotion at the 2011 ARA Rental show in Las Vegas, Nevada. The winner, Brook Hinman of A-1 Tractor located in Kingman, Arizona, was chosen in a random drawing from the entrants at the show.

"With a lot of quality product to offer, we wanted to generate some interest in our newest models, so we decided to give one away", says Arin Laugtug, Towmaster regional sales manager. "Delivering this trailer was a joy for me. Seeing how happy it made Brook reminds me how happy our customers are when they drive away with a new Towmaster trailer."

Towmaster supplies equipment trailers to the rental industry and builds drop-deck, hydraulic tail, detachable gooseneck, and many other trailers for hauling anything from skid-loaders and

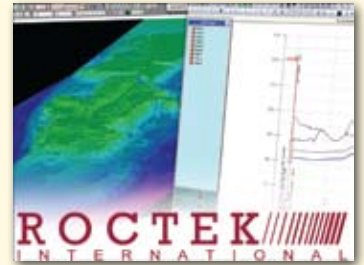

mini excavators to dozers and scrapers. For more information, visit www.towmaster.com.

HELAC LAUNCHES NEW WEB SITE

Helac Corporation, a worldwide leader of helical, hydraulic rotary actuators, and construction attachments, launched a new e-commerce Web site. The new site, www.helac.com/store allows customers to buy seals, bearings, and valve cartridges online via credit card for Helac Corporation's standard PowerTilt product lines, including PT and TT Series. Customers are able to search by product model, part number, and serial number. Helac's Customer Service Team will now be able to respond to orders more quickly, with a faster turnaround.

ROCTEK RELEASES NEW SOFTWARE

Roctek International Corp is pleased to announce the new release of WinEx Master Version 8.1, which includes Trench Pro™ for underground utilities. It features a simple, yet very powerful interface to easily calculate excavation and backfill material quantities from tracing profiles directly onscreen with a mouse. Just define the trench cross-section or choose it from the program's trench library to enter the overall excavation shape, pipe dimensions, and backfill material type and thickness. Now trace the ground surface and pipe inverts and it's time to calculate. Trench Pro™ takes a series of slices

Carve the Earth with a Proper Angle

New hydraulic buckets tilt 45 degrees right or left for faster operation and better finished grades.

Designed to dig fast, and with less effort
Clean ditches, create swales, load, grade and carve the earth with one attachment

Direct OEM fit in many sizes
Rugged Euro design for deeper penetration

See All Our Attachments at www.ajustabuckets.com

Attention: CONTRACTORS & BUILDERS

Locks tight! No fasteners

Rugged Cast Aluminum

It becomes anything you want it to be!

along the trench run from a user-defined frequency to calculate the amount of excavation and backfill. The reports will show trench run lengths, excavation volume, pay levels, and backfill material volumes. Trench Pro™ works with all of the most common digital file formats including pdf, tif, jpg, bmp, and more. For more information, visit www.roctek.com.

ARAMSCO INTRODUCES THE SYCLONE CENTRIFUGAL AIR MOVER

Exclusively sold at Aramsco, the Cyclone is the newest centrifugal air mover on the market. The Cyclone answers the need for an efficient yet low-cost air mover. This low-amp-draw machine allows more units to be used in one room concurrently, resulting in a faster drying time. The Cyclone air mover features a stackable design and dual-GFCI-receptacle outlet, allowing a user to daisy-chain up to four units. The control panel is front-mounted for uncomplicated access, and the three-speed setting provides controlled versatility. Powerful air flow of 2900 ft/min provides fast and effective drying for restoration contractors. For more information about Aramsco or to view the Cyclone Air Mover, call 800.767.6933 or visit www.aramsco.com.

PRO-TECH LAUNCHES NEW WEB SITE

Pro-Tech Manufacturing and Distribution has announced the launch of its new Web site at www.protechcorp.com. The site incorporates new tools and improved navigation to help customers and dealers find all the information they need. Some of the helpful tools on Pro-Tech's new Web site include a dealer locator, equipment selector, and the Pro-Tech forum, where visitors can discuss industry-related topics with company

representatives, dealers, and other professionals. The site also contains a dealer portal for enhanced dealer support.

LINCOLN EXPANDS CUSTOMER PROMOTION

Lincoln Electric has further enhanced its successful *Money Matters*™ promotion to offer customers even more choices when they purchase one of the company's six most popular welding machines. The company is telling customers "It's Your Choice" between a cash rebate of up to \$200 or free additional product worth up to \$424.

Money Matters now includes:

1. **POWER MIG® 140 MIG Welder** – \$75 rebate OR a VIKING™ auto-darkening helmet (\$181 value)
2. **POWER MIG® 180C MIG Welder** – \$75 rebate OR a VIKING auto-darkening helmet (\$181 value)
3. **POWER MIG® 216** – \$125 rebate OR a Magnum® 100 SG spool gun (\$229 value)
4. **Square Wave™ TIG 175** – \$150 rebate OR choose a VIKING auto-darkening helmet (\$181 value)
5. **Ranger® 225 Engine-driven welder/generator** – \$200 rebate OR choose a VIKING auto-darkening helmet, canvas cover and an accessory kit (\$424 value)
6. **Outback® 145 Engine-driven welder/generator** – \$150 rebate OR a VIKING auto-darkening helmet, canvas cover and an accessory kit (\$424 value)

The expanded program will run from March 1 through September 30, 2011. For more information, visit www.lincolnelectric.com. ■
